SIDEWALKS

136.07 PERMIT REQUIRED.

No person shall remove, reconstruct or install a sidewalk unless such person has obtained a permit from the Building Inspector and has agreed in writing that said removal, reconstruction or installation will comply with all ordinances and requirements of the City for such work. A written application for such permit shall be filed with the City and shall be accompanied by a permit fee in the amount set by resolution of the Council.

136.08 SIDEWALK STANDARDS.

Sidewalks repaired replaced or constructed under the provisions of this chapter shall be of the following construction and meet the following standards:

1. **Cement.** Portland cement shall be the only cement used in the construction and repair of sidewalks.
2. **Construction.** Sidewalks shall be of one-course construction.
3. **Sidewalk Base.** Concrete may be placed directly on compact and well-drained soil. Where soil is not well-drained, a three inch sub-base of compact, clean, course gravel or sand shall be laid. The adequacy of the soil drainage is to be determined by the City.
4. **Sidewalk Bed.** The sidewalk shall be so graded that the constructed sidewalk will be established grade.
5. **Length, Width, and Depth.** Length, width and depth requirements are as follows:
 - a. Residential sidewalks shall be at least four (4) feet wide and four (4) inches thick, and each section shall be no more than four (4) feet in length.
 - b. All sidewalks throughout the Business District shall be constructed from lot line to the curb line unless the location of the sidewalk is varied by an appropriate resolution of the Council upon application by the landowner.
 - c. Driveway areas shall be not less than six (6) inches in thickness.
6. **Location.** Residential sidewalks shall be located with the inner edge (edge nearest the abutting private property) one foot from the property line, unless the Council establishes a different distance due to special circumstances.
7. **Grade.** Curb tops shall be on level with the centerline of the street which shall be the established grade.
8. **Elevations.** The street edge of a sidewalk shall be at an elevation even with the curb at the curb or not less than one-half (½) inch above the curb for each foot between the curb and the sidewalk.
9. **Slope.** All sidewalks shall slope one-quarter (¼) inch per foot toward the curb.
10. **Finish.** All sidewalks shall be finished with a "broom" or "wood float" finish.
11. **Curb Ramps and Sloped Areas for Persons with Disabilities.**
 - A. If a street, road, or highway in this state is newly built or reconstructed, a curb ramp or sloped area shall be constructed or installed at each intersection of the street, road, or highway with a sidewalk or path. If a sidewalk or path in this state is newly built or altered, a curb ramp or sloped area shall be constructed or installed at each intersection of the sidewalk or path with a street, highway, or road.
 - B. Curb ramps and sloped areas that are required pursuant to this subsection shall be constructed or installed in compliance with applicable federal requirements adopted in accordance with the federal Americans with Disabilities Act, including but not limited to the guidelines issued by the federal architectural and transportation barriers compliance board.

CURB BREAKS

135.12 BREAKS IN CURBS.

1. No more than one break shall be made in the curb of the street abutting on any lot.
2. No break exceeding 35 feet in width shall be made in the curb of any street abutting on a lot used for commercial or industrial purposes.
3. No break exceeding 28 feet in width shall be made in the curb of any street abutting on a lot used for other than commercial or industrial purposes.
4. No break in the curb of any street shall be made within 20 feet of the property line of any intersecting street.
5. No break in the curb of any street shall be made if such break in the curb will cause a nuisance or interfere with the drainage of surface water.
6. The Council shall by resolution adopt detailed regulations governing the construction of breaks in curbs and the construction of driveway approaches and parking areas on the part of the street lying between the curb line and the property line.

135.14 UNSURFACED DRIVEWAY APPROACHES PROHIBITED.

No person shall cause any part of a street between the curb line and property line to be used as a driveway approach unless it is paved with Portland cement concrete or asphaltic concrete.

135.15 DRIVEWAY CULVERTS.

The property owner shall, at the owner's expense, install any culvert deemed necessary under any driveway or any other access to the owner's property; and before installing a culvert, permission must first be obtained from the City. In the event repairs are needed at any time with respect to culverts, it shall be the responsibility of the property owner to make such repairs, and, in the event the owner fails to do so, the City shall have the right to make the repairs. If the property owner fails to reimburse the City for the cost of said repairs, the cost shall be certified to the County Treasurer and specially assessed against the property as by law provided.
